Education

De La Salle University, BS in Computer Science major in Software Technology Sept 2022 – Oct 2026

- **Coursework:** Software Engineering, Database Systems, Machine Learning, Mobile Development, HCI

Experience

Chubb, DBA Intern April 2026 – Present

- Developed an RAG chatbot for MongoDB database documentation using Python, and VoyageAI to improve information retrieval.
- Assisted in automating database administration tasks to improve operational efficiency.

Data Science Society, Research Executive Oct 2024 – May 2025

- Contributed to the ideation of data-driven projects.

SDFO Paragons, Documentations Member Feb 2024 – May 2026

- Managed documentation for student organization events and assisted in the creation of post-activity reports.

Projects

DORY: Swimming Analytics System GitHub

- Led development of a WearOS-based swimming analytics system.
- Processed and visualized swimming performance metrics using signal processing concepts.
- Designed dashboards to present performance trends for coaches and athletes.
- **Tools:** Python, Kotlin, Android Studio, WearOS, Supabase

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase personal projects and technical skills.
- **Tools Used:** React, Tailwind CSS

Restaurant Review Platform GitHub

- Built a full-stack restaurant review platform using Next.js and MongoDB.
- **Tools Used:** Next.js, Tailwind CSS, MongoDB

Grade Calculator GitHub

- Built grade calculator web app that allows users to input course components and compute final grades.
- **Tools Used:** ReactJS, Chakra UI

Publications

EloMetrics: Advanced Outcome Prediction for Chess Matches with Elo Ratings and Logistic Regression Jan 2025

Ma. Julianna Reyes, Eirnan Dicreto, Emmanuel Santos, **Daniella Limbag**, Gabriel Avelino
10.1109/ICEIC64972.2025.10879733

Skills

Languages: Python, Java, C/C++ , Kotlin, SQL, JavaScript, TypeScript, HTML/CSS

Frameworks & Libraries: React, Next.js, Node.js, Tailwind CSS, Chakra UI, Handlebars.js, Scikit-learn, Pandas

Tools & Platforms: AWS, Android Studio, WearOS, Jupyter Notebook, Git, Figma, Selenium

Databases: PostgreSQL, MongoDB, SQLite, Supabase

Soft Skills: Communication, Leadership, Team Collaboration, Critical Thinking, Adaptability
