

# Daniella Franxene P. Limbag

Philippines | limbagdaniella@gmail.com | 0995 445 9103 | Portfolio | LinkedIn | GitHub

## Education

**De La Salle University**, BS in Computer Science major in Software Technology Sept 2022 – Oct 2026

- **Coursework:** Software Engineering, Database Systems, Machine Learning, Mobile Development, HCI

## Experience

**JWay Group Inc.**, AI Engineering Intern Jul 2026 – Present

- Training in AI-powered workflow automation and business process optimization.
- Developing skills in AI agent prototyping, dashboard development, and presenting automation solutions.

**Chubb**, DBA Intern Apr 2026 – Jun 2026

- Developed a RAG-powered AI assistant POC for the Global DBA team using Python, MongoDB, and VoyageAI.
- Assisted in iterative testing, technical documentation, and interface development.
- Gained exposure to database administration through shadowing senior DBAs at tasks and meetings.

## Extracurricular Activities

**Data Science Society**, Research Executive Oct 2024 – May 2025

- Collaborated with fellow members in research-related initiatives and discussions.

**SDFO Paragons**, Documentation Member Feb 2024 – May 2026

- Assisted in preparing post-activity reports and organizational records.

## Projects

**DORY: Swimming Analytics System** GitHub

- Led development of a WearOS-based swimming analytics system.
- Processed and visualized swimming performance metrics to present performance trends for coaches & athletes.
- **Tools:** Python, Kotlin, Android Studio, WearOS, Supabase

**PaperXent: Paper Trading Platform** GitHub

- Built a full-stack paper trading app with market discovery, server-priced trades, and portfolio analytics.
- Implemented post-trade AI analysis with portfolio metrics.
- Tools Used: React, Next.js, Node.js, TypeScript, PostgreSQL, Prisma, Gemini, Tailwind CSS

**Practi: Internship AI Assistant** GitHub

- Built a RAG chatbot that answers internship-related questions from practicum course documents.
- Implemented date-aware semantic retrieval and multi-format document ingestion.
- Tools Used: Python, Next.js, Tailwind CSS, FastAPI, LangChain, Groq, ChromaDB, sentence-transformers

## Publications

**EloMetrics: Advanced Outcome Prediction for Chess Matches with Elo Ratings and Logistic Regression** Jan 2025

Ma. Julianna Reyes, Eirnan Dicreto, Emmanuel Santos, **Daniella Limbag**, Gabriel Avelino  
10.1109/ICEIC64972.2025.10879733

## Skills

**Languages:** Python, Java, C/C++, Kotlin, SQL, JavaScript, TypeScript, HTML/CSS

**Tools & Platforms:** Git, AWS, Android Studio, Jupyter Notebook, Prisma, Figma, Selenium, VoyageAI

**Databases:** PostgreSQL, MongoDB, SQLite, Supabase, ChromaDB

**Frameworks & Libraries:** React, Next.js, Node.js, FastAPI, Tailwind CSS, LangChain, Scikit-learn, Pandas

**Soft Skills:** Communication, Leadership, Team Collaboration, Critical Thinking, Adaptability
